## **Press Release**

## FOR IMMEDIATE RELEASE:

## Computer Instruction at the YMCA

(SPRING HILL, FLORIDA) – Have you been interested in attending a Library computer class, but just haven't been able to make it over to one of our branches? This month, Library instructors are bringing their show on the road, as we partner up to bring computer classes to the YMCA.

On Wednesday, August 22, from 11:15-12:15, the Hernando County Public Library will offer a beginner's computer course for adults at the Hernando County Branch YMCA, at 1300 Mariner Boulevard, Spring Hill, Florida 34609.

The YMCA community center has six computers for students, and all students will be able to follow along from the instructor's laptop. Registration is required, as spaces available are limited. Please call or visit the Library's website to register.

For more information or to sign up, call (352) 754-4043 or visit the Library's website at http://www.hernandocountylibrary.us
